# Think Indian. Think Innovation.

The Indian cooking habit is truly elaborate and needs a diverse array of pans, kadhais, tavas, masala boxes, plates, thalis and various kinds of utensils. None of these can be accommodated by foreign-made drawers and accessories.

A good looking kitchen is a delight, but what's more important is an easy-to-use kitchen. So at Godrej, we undertook extensive research to study Indian kitchens and the different styles of cooking.

The resultant deep insights helped us create the SKIDO range of innovative kitchen storage solutions that make the lives of Indian homemakers easier and better.

### Problem

In the existing drawers, a lot of kitchen cutlery isn't easily accessible to you. This leads to clutter and confusion. For example, when you need a spatula, you find it buried under other cutlery, while oddly-shaped serving spoons are difficult to access. Also, lack of flexible partitions create rigid spaces which are restrictive and difficult to access.

### Solution

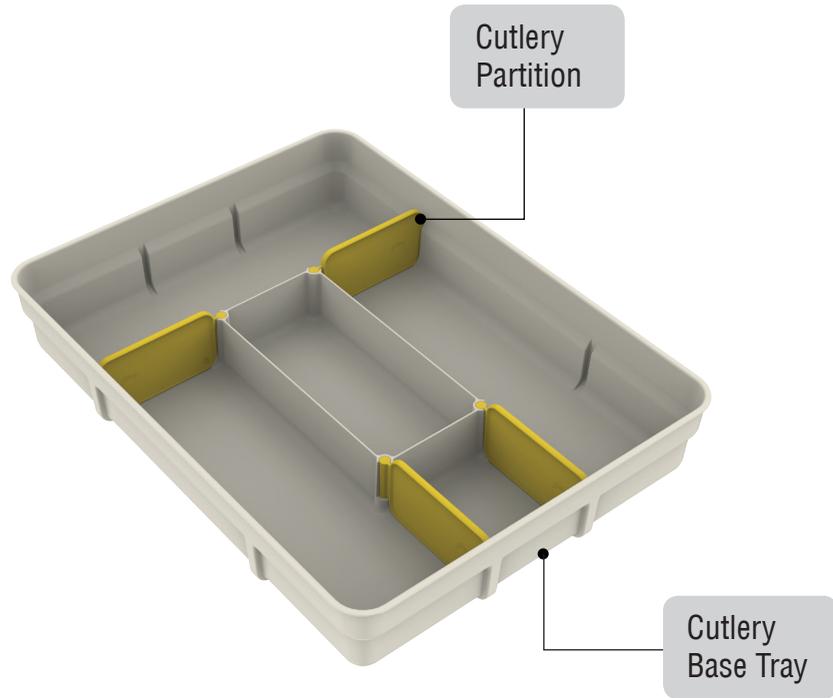

With the SKIDO Cutlery Organiser, things are different. Now, all the cutlery is visible, neatly placed and easily accessible. Its adjustable partitions offer you the choice to customise according to your needs and habits. With your belans, chimtas, zara's and spoons easily stored, put an end to cutlery clutter. Easy to remove and clean, the Cutlery Organiser helps you in neatly arranging even the odd-sized cutlery.
